

# Streamline Your District's 1:1 or Device Take-Home Program

*Distribute devices to staff and students, provide easy methods for users to submit tickets, manage devices through their entire lifecycle, and enable education that expands beyond the classroom.*

## Specifically Designed for 1:1 and Take-Home Programs

*Assign devices to staff & students quickly and easily*

### Efficient Check-Out/In Process

- Create a streamlined assignment process via TIPWeb-IT
- Quickly issue inventory to staff and students
- Simplify your asset assignment process by integrating with your existing SIS, and HR Systems
- Streamline device deployment and collection with barcode technology
- Assign and collect devices, all while tracking the entire history of each asset

### Electronic Signatures for Comprehensive Oversight

- Digitally capture inventory receipt signatures as you're checking out devices to students and parents
- Collect signatures and capture documentation such as policies, agreements, and user compliance

### Track Fees, Fines, and Payments

- Increase accountability and asset retention by easily tracking assigned devices, fees assessed and collected, and recorded damages
- Provide invoices related to damages or optional insurance payments
- Integrate with the SIS and/or cash management systems for payment obligation fulfillment

# Support Your Users with an Integrated Help Desk System

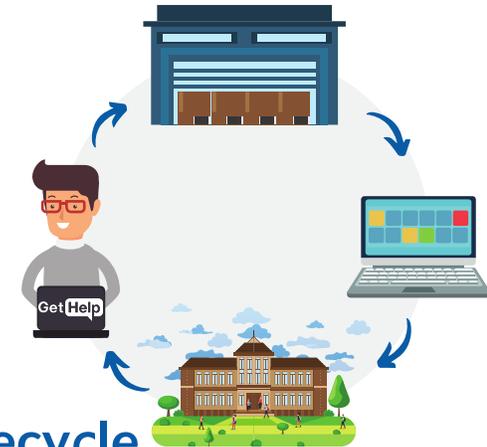

*Quickly respond to tickets with GetHelp, so teachers, staff, and students stay focused on what matters – teaching and learning*

## User Ticket Submission

- Students and staff can quickly and easily submit tickets when they need help most
- Tickets can be simply submitted via email or via a user-specific dashboard, whichever is easiest
- User accounts, if needed, automatically created via Google SSO or Active Directory
- Tickets are triaged and routed to your techs based on your workflows

## Comprehensive Inventory Details, All in One Location

- Integrated with TIPWeb-IT to manage the use, availability, warranty information, funding source, and other key data
- See device details about each asset while creating ticket
- Access asset's ticket or assignment history

## Manage Assets Throughout Their Entire Lifecycle

*Track and support assets across your district with a solution that gives you confidence in your inventory data.*

### Plan and Budget for Replacements and Refreshes

- Accurately predict upcoming technology needs for your district on an ongoing basis
- Forecast upcoming tech refreshes
- Comply with requirements to track funding sources with ongoing reporting

### Gain Visibility and Increase Oversight

- Import, track, and manage your assets all in one place
- Maintain a centralized catalog of products & locations
- Identify details of individual assets including warranty information
- Simplify transfers, requests, and audits (including utilizing RFID technology)

For nearly 30 years, Hayes has empowered school administrators to make confident, data-driven decisions with inventory products and services built for the unique needs of K-12. Used in over 8,000 schools, including 35 of the largest 100 districts in the country, Hayes's inventory control solutions impact over 8,000,000 students.
