

Physical Inventory Services for K-12

Gain Confidence in Your Data with Physical Inventory Services

With new adoptions happening every year, it is hard to find time to keep track of all your inventory. Let our team conduct a physical inventory of all material for you and ensure everything is accounted for, so that you can spend your time empowering students and educators in the classroom.

Empower Your District

Hayes' inventory services can set your district up for a quick and easy physical audit of all assets and instructional materials in a fraction of the time it would normally take your team. With Hayes' physical inventory services, you can:

- Gain confidence in the district's inventory data and establish a baseline inventory of your assets and materials
- Integrate the most updated information into your inventory control platform
- Save your team the time and hassle of coordinating and executing an exhaustive audit

“I can tell you **exactly** how many assets my district has and their total value.”

Nick DePauw, Director of Information Technology
Patterson USD (CA)

TIPWeb^{IT}

Physical Inventory for K-12 Asset Management

TIPWeb-IT is an asset management system that empowers you to work smarter by efficiently managing district and campus inventory in a single solution. Tracking and managing inventory data in TIPWeb-IT makes it easy to report what you own, where it's located, and how it's being used.

TIPWeb^{IM}

K-12 Instructional Materials

With TIPWeb-IM, districts can track and manage print and digital instructional materials in a cloud-based system built specifically for the needs of K-12 school districts. Reduce textbook losses, simplify audits, and increase the accountability and transparency of your inventory with TIPWeb-IM.

SAVE TIME, GAIN CONFIDENCE

Our team will perform a physical audit of all assets in your district, updating data in your TIPWeb system. As a result, you'll reduce losses, hold students and staff accountable, and save both time and money. The team will go wall-to-wall and floor-to-ceiling to locate and identify all assets or instructional materials. Quality control checkpoints in the process ensure thorough and accurate deliverables. Upon completion, we provide you with live data in your inventory software platform.

"Processes that used to take several minutes now take **less than 30 seconds**. Multiply those time savings over the thousands of materials staff are responsible for managing, and the result is more time available to spend **focused on student academic success.**"

Matt Tyner, Manager of Textbook Services
Dallas ISD (TX)

WITH PHYSICAL INVENTORY SERVICES, YOUR DISTRICT CAN

- ✓ Establish a complete inventory baseline of all found district materials/textbooks
- ✓ Update information regarding all materials in TIPWeb-IM or TIPWeb-IT
- ✓ Ensure that all district materials are tagged and scanned

K-12's #1 EdTech Platform

Hayes Software Systems specializes in inventory control solutions to automate K-12 asset and instructional material accountability. By incorporating respected methodologies with the unique needs of education professionals for over 29 years, Hayes helps over 7,000 schools across 39 states implement inventory control solutions. TIPWeb solutions support the workflow and planning required to track instructional resources to students and teachers.
